ICE SHORTAGE IS RELIEVED

Local Plant is Enabled to Catch up With Demand in This Locality

OTHER MAKERS HELP OUT

Through the entrance into the field of a new Monessen ice company it is believed the local ice famine which has been in progress since the record breaking warm weather of a few weeks ago has been controlled. The Valley Crystal Ice and Storage Company of North Charleroi which supplies a good part of the locality with ice, has been enabled to catch up with its trade. Meanwhile while this part of the Monongahela valley is experiencing a change for the better, other sections are just entering into their worst period of suffering.

Wheeling has taken over the ice plants in the city limits for municipal operation. The situation in Pittsburg and outlying districts is acute. Not enough ice can be manufactured by the plants to satisfy the demand. At Homestead people have had practically no ice for three weeks. Ice cream manufacturers have been compelled to shut down.

The local territory extends from Monongahela to Brownsville. Brownsville lately has been trying to buy ice from the North Charleroi plant, so that the shortage is beginning to be felt there. However, from this time forth, with ordinary good fortune the situation locally should be controlled.

CLAIMED GIPSIES DEFY MONESSEN AUTHORITIES

Band Now Encamped at Wireton Said to be Reading Palms When Burgess Refused Permission

In bold defiance it is claimed of borough authorities, who declined to issue a permit when it was sought, gipsy fortune tellers are making their rounds in Monessen reading palms. Burgess A. G. Dunlap refused them a permit after they had been refused in Charleroi.

The camp of gipsies, one of the largest to visit the section in a number of years, is located at Wireton and the band of transients are giving the residents considerable worry and trouble. The visitors have been notified to get out. The police have been instructed by the Monessen burgess to arrest any one caught telling fortunes or reading palms.

ASKS THAT GUARDIAN FOR WOMAN BE APPOINTED

Upon petition of the poor directors the court has set Tuesday, August 15 as the date for the hearing in the application for the appointment of a guardian for Kate Noble. The petition sets forth that she was committed to the County home on July 13, 1916 from California. Later she was sent to the insane hospital at Woodville and then to the insane department of the Somerset County home, where she still is, upon the certificate of Dr. C. P. Paxton and W. W. Latta, of California. She has about \$400 in the Peoples Bank of

LOOKING FOR WOMAN WHO DISSAPPEARED FROM HOME

Louis Goaziou and Police Searching For Whereabouts of Mrs. Bouquier, Who Left Suddenly

Aided by the police, Mr. and Mrs. Louis Goaziou are searching for information as to the whereabouts of Mrs. Mary Bouquier, aged 64 years, who disappeared from their home on breakfast time this morning. In what direction she went no one knows. Mrs. Bouquier has been stopping with the Goaziou at their home on Fallowfield avenue for some time. She has not been well and it is feared her mind has become affected. Remarking she wanted a little fresh air she went to the back yard this morning. Since she has not been seen by anyone who knows her. The police were summoned but have so far been unable to locate any trace.

USE OF RIVER IS SUGGESTED

Water Transportation Proposed in Event Railroad Strike is Declared

COL. ROBERTS HAS PLAN

Col. Thomas P. Roberts, assistant chief United States engineer for the Pittsburgh district, believes that, in the event of a railroad strike the rivers can be used to a great advantage by the manufacturers of the Pittsburgh district for the transportation of their products, also for bringing things to Pittsburgh from other cities.

The usefulness of the rivers in this respect Mr. Roberts says is not justifiably appreciated by manufacturers and a situation such as might be brought about by the threatened railroad strike might serve for general transportation purposes. He says there are at least 2,000 steamboats and barges available at the present time and that 60 of this number have cabins to protect their contents from the elements. Also, he points out, river transportation on the average product is less expensive than that of the railroad. "We have large warehouses in Pittsburgh," he states, "which are always kept well stocked with Pittsburgh products, especially provisions and fortunately for the cause of river transportation, these warehouses lie convenient to the water. I believe that if such a test were made it would prove epoch-making."

For instance, Mr. Roberts suggests, that, in the event of a railroad strike a train of fast motorboats be established on the river for the transportation of milk, butter and eggs to avert a famine which would otherwise be inevitable if a strike should tie up all the country railroad transportation facilities.

First Paralysis Case.
The first case of infantile paralysis in Washington borough was discovered today, the victim being George Kalla, aged 2, son of Mrs. Frank Kalla of Washington.

California and the poor directors ask for the appointment of a guardian.

DOESN'T KNOW WHERE MONEY IS

Man Arrested in Monongahela Tells Queer Story to Alderman McAllister

DECLARES HE IS A PHYSICIAN

Edward A. Brown, arrested at Monongahela Tuesday evening on charges of forgery and obtaining money under false pretense, pleaded guilty Thursday evening at a hearing before J. B. McAllister on the false pretense count and was held to court. He will be committed to jail tomorrow in default of the bail in the sum of \$300. United States Deputy Marshal John R. Dillon will charge him with impersonating a federal revenue officer upon his arrival in Washington.

Brown says that he is from Richmond, Va., and that he is a physician and a chemist. He declares that he has been sober but two weeks in the last year. He has money in a bank somewhere, but has been unable to remember, where the bank is. This has led him into his present difficulties. He states that he is married but that a minister caused him and his wife to separate. He says he has a 16-year-old son in college and that a brother lives in Clarksburg, W. Va.

SOLDIER BOYS ON BORDER WILL GET CHANCE TO VOTE

It seems settled now that the 13,000 Pennsylvanians in khaki on the Mexican border will be there until the voters of the United States have chosen their next President in November. And no matter what provision may later be made by Congress or the Legislatures of other States the Pennsylvania soldier boys of voting age are guaranteed full participation in the election. They will not only help select the next President but will cast their ballots for Congressmen, United States Senators, Auditor General, State Treasurer, State Senators and members of the Legislature, just as though they were at home and in their own election precincts.

Pennsylvania provided this privilege for her troops during the Rebellion, and carrying out the provisions of an act of 1864, providing bounties, etc., Governor Brumbaugh has the right to appoint 15 election commissioners to go to the border or wherever the Keystone troops are located at election time, and conduct an election, returning with the ballots and return sheets, which will be counted in along with the vote cast here in Pennsylvania.

These commissionships will probably be much-sought places. It is provided that a commissioner may be appointed for each of the infantry regiments, the artillery and cavalry regiments. It is not stipulated that there shall be a commissioner for each regiment, but that is said to be the intent of the law. The compensation provided does not make the places lucrative but they are attractive enough.

DAMAGES ASKED FOR ACCIDENT

Mr. and Mrs. Ephriam Allison Claim \$10,500 For Death of Daughter

RUN DOWN BY AUTOMOBILE

A suit to recover \$10,500 damages for the death of Mary E. Allison, the daughter of the plaintiffs, has been filed by Ephriam Allison and his wife, Clara, against Robert W. Jones.

The statement of claim sets forth that on May 10, 1916, Mary E. Allison was struck and almost instantly killed by an automobile driven by the defendant. It is alleged that Jones was running his machine in a reckless and careless manner and that he failed to give the proper signal. It is also alleged that the defendant was not a properly experienced driver.

The accident will be remembered as one that took place on Lincoln avenue just beyond First street near midnight of the date given. Miss Allison was one of a number returning from a party out Maple creek when the accident took place.

BOTH TEAMS TO PRESENT BEST LINEUPS TOMORROW

When the Pittsburg Steel Products company and the Monongahela Independents face each other, on the Charleroi grounds tomorrow afternoon, both teams will present their best lineups. The Products club will have three new faces in the lineup. One of them will be Joe Dent of Bucknell college, who will play first base in the absence of Hen. Wilson, the crack player injured in last Saturday's game here. Wilson has not yet recovered sufficiently to enter the game. Another new player will be Getsie, a shortstop of Cokeburg. "Sip" Sloane will do the pitching. There is much anticipation of the game and a large crowd is looked for. It will be the first of a series.

BENTLEYVILLE PLEASSED OVER PROSPECT OF NEW COAL MINES

Bentleyville and the whole community is much elated over the fact that new coal developments are to be soon made south of this territory, in the Ten Mile Fredericktown districts. It is stated that coal men have authorized the building of a railroad line from Besco to the new field and that work will soon begin.

Some time ago about 500 acres was looked over and this new field will soon become the scene of active developments.

In the Beallsville district coal men have been considering putting down a shaft and it is stated that this will occur in the very near future and that a town will be built on the outskirts of Beallsville.

Bentleyville folks as well as the whole valley are watching these developments closely and it will add impetus to the whole valley when they become a realization.

Eagles Win

The Charleroi Eagles won from the Charleroi Leightys by the score of 9 to 3. Batteries for the Eagles were Schoener, Swearer and Espey and for the Leightys, Buster and Leighty.

FUNERALS OF TWO TRAGEDY VICTIMS ARE HELD TODAY

Anthony Pearce Obsequies Held Here And Services For Miss Lenhart At Belle Vernon

Funeral of two tragedy victims were held this afternoon. The one was that of Anthony Pearce, who met death as the result of a motor truck accident on Fifth street Tuesday and the other was that of Belle Vernon of Miss Bertha Lenhart, the girl who was drowned while bathing in the river at Dunlevy Wednesday afternoon.

Rev. E. N. Dury, pastor of the First Christian church conducted the Pearce obsequies at the late home at 2 o'clock and at the same hour the Lenhart funeral was conducted by Rev. B. C. Hibler of the Belle Vernon Christian church at the Lenhart home. Large numbers of friends attended both funerals.

LABOR SCARCE AT MARIANNA

Superintendent Wm. Bird Finds He Could Use Many Additional Men

MINES NOW ON THE MARKET

Coal miners are extremely scarce in the Marianna region, the result of which is that the coal production is greatly curtailed. Several hundred could be conveniently used, according to Superintendent William Bird of the Marianna mines. At other points there is also reported to be a need of men, this being true particularly in the mining industry and with employers of common labor.

That the Marianna mines are on the market and may eventually be sold is the report. At least one steel company operating in western Pennsylvania is said to have a covetous eye on the workings, this being the old Cambria concern. The present owner and operator of the Marianna mines is the Union Coal company, which is an affiliated concern with the Union Trust company in Pittsburgh.

UNION CHURCH SERVICES TO BE HELD DURING AUGUST

Ministers Are Assigned to Various Sunday Evenings—First Service at Majestic Theatre

Following is the program for union church services during Sunday evenings of August: August 6, First Baptist church, Majestic theatre, with Rev. A. J. Whipkey as preacher; August 13, First Presbyterian church, with Rev. W. G. Carl, as preacher; August 20, Washington Avenue Presbyterian church, with Rev. C. P. Bastian as preacher; August 27, First Christian church, with Rev. W. G. Mead, Ph. D. as preacher.

The services will be conducted the same that they were last year and the year before, with the music in charge of the choirs where the services are held.

LAW-CRAZY

Practically every man in the United States knows that everything would be perfectly lovely if he could only get some fool law or regulation enacted, says the *Uniontown Herald*. As a result of this tendency the nation, and state legislatures during the past five years have enacted 62,550 laws. The figures are supplied by Edward Trefz, field secretary of the Chamber of Commerce of the United States. He was addressing the annual convention of the Electrical Contractors' association in New York and contrasting our methods with those followed in England: "England has awakened," said Mr. Trefz, "and in the past ten years her Parliament has passed but 1,500 laws but we are law-crazy. In the past five years our national and state law-making bodies have passed 62,550 laws, forgetting perhaps that God Almighty has made a very fair success out of this universe with only 10 laws."

Where the legislatures leave off subordinate bodies begin. We have endless streams of regulation and ordinances which do no good and which hamper and hinder. We could get along very much better with very much fewer laws with their exasperating restrictions for the citizen, their work for the courts and their general futility. There are now probably more laws that are dead letters through neglect and inability of enforcement than there were altogether on the statute books ten years ago.

Keeping men in idleness in prison as a means of doing justice, protecting property and accomplishing the other things aimed at under the name of correction is, rather gradually, being found not only costly to the public, but to place penalties upon the wrong persons, says the *Christian Science Monitor*. Studies need not advance far to reveal that it is actually the family rather than the incarcerated man, that is sentenced. An inquiry by the Chicago Juvenile Protective Association, as to the experience of families of men sent to a house of correction shows that in nearly every instance the wife and the children are compelled to do unaccustomed work or are aided by charity. In only three out of fifty cases did they possess property sufficient for support. At least a share of his earnings at some useful trade is plainly enough the due of the prisoner and his dependents, but that phase of both economic and personal justice is scarcely recognized in present systems.

Under way at the present time is a big job of street paving in different sections of the borough. Various streets are torn up and have been torn up for weeks awaiting completion, some of them being barely passable during that time. Comparatively little of the paving has actually been finished, while progress is being made toward getting all in shape for brick laying. Objections are being heard to this plan, for property holders do not care to have streets in front of their homes in bad shape for weeks, their sidewalks occupied meanwhile to a considerable extent by piles of bricks. A more satisfactory method of procedure might have been hit upon, according to the viewpoint of the property holders, by one section being taken at a time, it to be completed before another was started.

It may be true that pride goes before a fall—but the person without pride cannot possibly fall any lower. Let no one be disconsolate. It is sometimes better to have loved and lost than to have loved and won.

Any one who has watched a modern girl adjust her belt will concede that she ought to make a great housewife. She wants but little waist and is a wonder at making both ends meet.

A company of very new soldiers were out on a wide heath, practicing the art of taking cover. The officer in charge of them turned to one of the rawest of his men:

"Get down behind that hillock there," he ordered, sternly, "and mind not a move or a sound!"

A few minutes later he looked around to see if they were all concealed, and to his despair, observed something wriggling behind the small mound. Even as he watched, the movements became more frantic.

"I say, yo there!" he shouted, angrily, "do you know you are giving our position away to the enemy?"

"Yes, sir," said the recruit, in a voice of cool desperation, "and do you know that this is an ant-hill?"

ELECTRIC SPARKS

Harry Thaw went to Uniontown the other day. Yes he got a personal mention in the paper.

Many a man wishes he was as brave as that congressman from Texas who revels in life without a collar.

Wonder if it will prove true that car lineal descendants will calmly refer to our present white linen collars as neckcuffs.

Since the coming of the hot weather there has been little noticeable wearing of neck furs.

Unless a substitute is provided America will soon be wearing wooden shoes, say manufacturers. This may be, however, only a way to threaten us back to the simple life.

Operation not Necessary after
Taking the Great Medicine
for Women.

Mrs. E. F. Miller, "Doctors said I had displacement very bad and I would have to have an operation. I had a soreness in both sides and a pulling sensation in my right side. I could not do much work the pain was so bad. I was also troubled with irregularity and other weaknesses. My blood was poor. We had been married four years and had no children."

After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I became well and strong and was saved from the operation. To know the number means that she must remember with absolute accuracy the names and numbers of five hundred and ninety-six Charleroi subscribers. With any name called she must instantly associate the proper number. If she errs, the wrong party is called and thus annoyed and the party calling gets someone he does not want and must call again, and the whole service suffers.

If the operator must refer to the directory when you call by name, you and other calling parties are delayed while she ascertains the number and the whole service is retarded.

BABES LICK PRODUCTS BY HEAVY SLUGGING

Home Runs Bring in Scores—Davis Pitches Great Game For Babes Permitting Only Five Bingles—Phillips and F. Guder Star Hitters

By tremendous slugging of the ball when slugging meant runs the Charleroi Babes defeated the Pittsburgh Steel Products club on the Charleroi grounds in a nine-inning twilight game Thursday evening. The defeat was a shut out 8 to 0, with the best scoring being done in the fifth inning. Four runs were tallied then.

In the first innings the Babes started things by two home runs. Another single was made but it didn't matter. Schafer was first up and he touched off the first rocket and then W. Phillips lit on the ball for the second home run.

In the fourth the Babes rounded another run, L. Phillips doing the scoring on his own single, that of Davis and a life. And then approached the awful fifth. W. Phillips flew out, starting. Sannier singled, Claybaugh singled, Tippins singled and Miller clouted the horsehide for a homer. Results, four runs. In the ninth, W. Phillips singled and stole second, scoring finally.

Davis a new pitcher twirled for the Babes and permitted no freedom with his delivery. Only five hits were secured by the Products. Virtually their only chance to score at all was in the fourth inning when two men got on base on singles. J. Guder was nailed at third and that is as far as anybody got. Elliott worked his way toward third in the sixth but was caught. The Steel Products lacked their best lineup, still it was

hitting that took the game.	Score:
